Activities

One of the founders of Excelsior Awareness Committee: February 2016- June 2016

As a group, we have educated students from different middle schools of modern day slavery. We have facilitated and engaged with different activities with these students.

Vice-President of Robotics Club at Excelsior Academy: Fall of 2014- Fall of 2016

We competed in yearly competition where we built robots to complete various tasks. We also engaged with the community to teach technology based programs to interested children and adults.

Student- advisory board of Global to Local at Excelsior Academy: September 2016- Current

As a club, we are dedicated in helping the community to better help to grow. We are scheduled to go to Quito Ecuador in the summer of 2017 to volunteer at an afterschool program assisting children. Hoping to use this experience, we plan to lead impact projects around the community to tackle different issues.
